# Advanced lining solutions for all heating, ventilation and kitchen extraction applications available only from Kompozit'allUK

## Proven versatility. Guaranteed for 25 years. Full national technical support from Kompozit'all UK.

### Adaptability

FuranFlex 25 and VentilFlex25 offer the proven solution for lining applications for all types of heating and ventilation. With the very latest proven techniques Kompozit'allUK distributors can solve your requirements **quickly, cleanly and guaranteed**.

### Credibility

FuranFlex - invented, developed and manufactured by Kompozitor over the last 16 years.

FuranFlex - introduced, **tested, certified, listed and guaranteed** by Kompozit'allUK Ltd over the last 5 years.

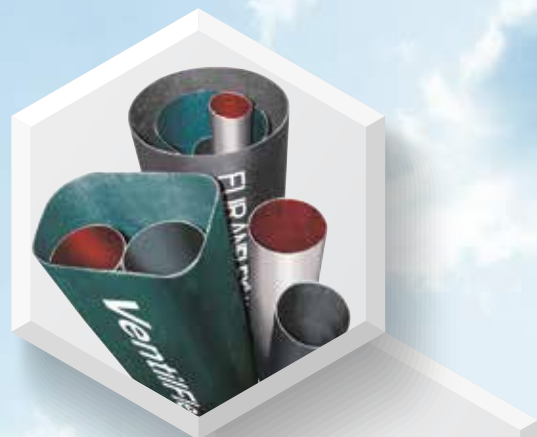

### Guarantee

Our confidence in our product and our Kompozit'allUK distributors means FuranFlex25 and VentilFlex25 come with a unique **full 25 year product guarantee**.

This is only available from Kompozit'allUK distributors whose **personnel are annually certified**. Our guarantee provides for a **full value replacement** should a product issue occur.

Whilst some manufacturers and installers claim to offer a 25 year guarantee they may only replace the liner and even this may be aged over the period, so if the liner has been in use, for example for 10 years, they may reduce their offer to a proportion of the cost of the replacement liner, but nothing towards the cost of re-installation.

With Kompozit'allUK if there is a manufacturing fault **both the liner and the re-installation costs are completely covered for the full 25 year period**.

Products for  
ALL  
applications

Over  
4 million metres  
installed in over  
29 countries

Independently  
tested, certified  
and CE marked
